Download app 17.9 MB, version 2.1.98, for Android 4.4+ How to install? Find free online video streams and enjoy them on your Android phone or tablet: Mobdro constantly searches the web for the best free video streams and transfers them to your device. Easily find video streams from all over the world, on any topic and in any language. Share videos and let your friends know what you're watching with a single click. Organize your streams and filter them by language or topic, and player story is always at hand. Download your favorite streams and watch them offline wherever you want. If you have any questions about Mobdro, comprehensive FAQs are your friend. Watch your favorite TV show anytime, anywhere. Mobdro allows you to watch the broadcast of your favorite program by searching for free internet streams, so you do not spend hours looking for a way to watch a particular program. Even if you don't know exactly what to watch, you can use the app to search for recommendations based on different categories, so if you're looking for recipes, news, sporting events and even a medical procedure, you'll certainly find the program here. This app finds the best free streams you want and need, taking care of the hard part of opening each site to see if it's good or not. You can favorite streams so you can access your site quickly the next time, and you can share what you're watching with your friends. More than allowing you to watch the broadcast, Mobdro also provides the ability to download the program so you can watch it again as many times as you want. This option is especially useful if you don't have permanent internet access, so you can watch your favorite shows by downloading them. The application is very easy to use and easy to understand because it was developed specifically for mobile devices, so it is quite intuitive and convenient. When you watch a show, the app won't bother you with questions and pop-ups, and if you organize your channels, it will guide you through the process. Download Mobdro now and have the best TV content and podcasts with you in your hand. If you're looking for the best free movies to play on your smartphone or tablet, Mobdro is the app you need. This Android app is constantly looking for the most interesting, surprising and/or fun content to enjoy. Discover and play the best TV movies. The main difference compared to other similar applications is not that we directly select content as a movie or chapter in a series. It's like watching TV because we choose a channel to watch. Watch TV as in the old days What we get to the list of channels in constant transmission. These are thematic channels, we will not have the chance to see your programs on demand, but rather tune them and let them amaze you. Go to the list we find: Videos. Series. Messages. TV shows. Sports. And not only that. We don't just find channels programmed by the people in charge of the app: we also have streams of traditional TV channels. In short, in this application we will find a free TV with new content and programming, as always. Main features When installing an APK file, the user will be able to use the following features: Easily discover and find movies from anywhere in the world, theme and language, including TV channels. Organize your videos and filter them according to different criteria. Share videos with friends with a single click. Play themed channels. Features of the future premium version of Mobdro Is a program that we can use for free, but those responsible are developing a paid premium version, which is aimed at improving the user experience. In addition, the features and features of the free version are to be able to take into account the following aspects in the future: Completely ad-free to get a cleaner viewing experience. The ability to download streaming video to play it at any time without a connection. Compatible with Chromecast for playing movies on the big screen. A timer that allows you to program the shutdown of the application and thus avoid unnecessary battery consumption. If you are wondering how to download Mobdro already be warned that you will not be able to find it on Google Play, but you will see dozens of applications that offer manuals, tutorials that explain how it works and such, but not the official application. This will only be possible by accessing the site or downloading in Malavida for example. What's new in the latest version of Audio and Video Sync Improvements on Android TV.
